## EDUCATION

2017                      MBChB

2016                      MRes Medical Sciences (Merit)

2007                      BA Philosophy (2:1)

## KEY SKILLS

- Evidence appraisal & study design (bias, endpoints, feasibility)
- Patient safety, clinical governance, risk management
- Quality improvement / audit (measurement, run charts, PDSA)
- Health systems & implementation realism (workflow, adoption, constraints)
- Ethics and data governance (proportionate safeguards)
- Clear written reporting under deadlines

## RESEARCH, CLINICAL AUDIT & QUALITY IMPROVEMENT

- 2020 QIP: HRURVs (High Risk Unscheduled return visits) to the Emergency Department, Stepping Hill Hospital:
- Defined HRURVs metric; extracted/analysed ED data; produced run chart
  - Designed/ran PDSA awareness intervention; assessed effect
  - Summarised findings and recommendations for next-cycle drivers
  - Tracked weekly HRURVs; run chart used for change detection
- 2016 MRes dissertation (University of Manchester): *Associations between inflammation, cardiovascular risk factors, and atherogenic dyslipidemia in patients with systemic lupus erythematosus*

## **COURSES & CERTIFICATES**

- 2019 Advanced Life Support (ALS), Blackpool Victoria Hospital
- 2019 EPICC (Exam Practice Improving Clinical Confidence): final year medical student revision sessions (5 CPD points)

## **PROFESSIONAL MEMBERSHIPS**

- 2017 - present GMC Registration (Full)

## **INTERESTS**

Rock climbing, mechanical and construction engineering, chess, computing and electronics, medical informatics and digital health.
